A Ministry Partner of
**SOUTHEASTERN
UNIVERSITY**
Lakeland, Florida

The mission of Southeastern University is to equip students to discover and develop their divine design to serve Christ and the world through Spirit-empowered life, learning and leadership.

We don't confine that mission to our campus in Lakeland, Florida, and have established partnerships around the country to reach students where they live and work.

These sites extend the Christ-centered culture of Southeastern University and develop leaders who will impact their communities. It is our goal for these partnerships to become shining examples of how universities and local organizations, especially churches, can maximize their resources and change the lives of students.

Training Ministry Leaders

Southeastern University has a passion for raising up a new generation of church and ministry leaders who are committed to serving the world around them. Our College of Christian Ministries & Religion faculty members are proud of the tradition we have established for sending graduates into the ministry, prepared to lead through Christ-like service. We have also dedicated resources to help reduce the debt that ministry students carry after graduation. It's our goal to see pastors, missionaries and other leaders free to serve the world without the worries of student loan debt.

We have carried that same mission over to our extension sites. Our affordable extension programs are designed to equip you with the tools you need at a reasonable price.

Benefits to Students

Extension sites of Southeastern University offer students the best of both worlds: flexible online learning blended with face-to-face instruction. Among the benefits are the following:
